

CyberTeachers® E-learning Live

The interactive learning experience
directly connected to the world

CyberTeachers® 5th Edition to learn English, Spanish and French. Interfaces available in major languages.

CyberTeachers® is the newest online programme to learn a language, the result of 8 years e-learning experience and 27 years of applied research in corporate language training. CyberTeachers® was awarded the European Institute Innovation Prize.

A dynamic solution available in four levels, adapted to 218 job profiles, the CyberTeachers® programme tailors contents to learners' individual requirements and targets. This unique approach is based on various media (news articles, videos, dialogues, a language laboratory) and ideally complements all learning methods (phone lessons, e-mail or podcast) anytime anywhere.

Do you want to start with 15 minutes per day?

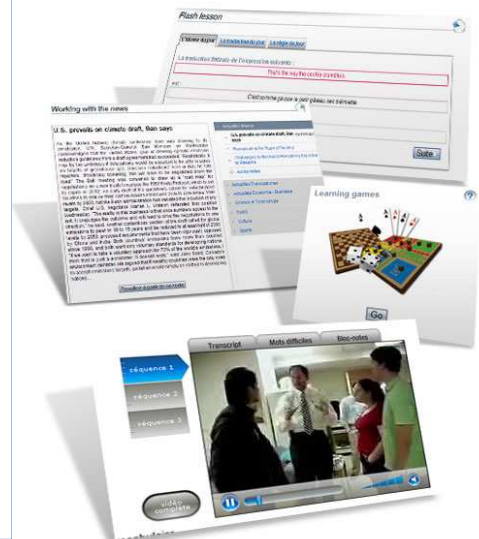

A daily Flash Lesson® in your inbox

Start your day with a mini-lesson and learn a new idiom, how to translate a tricky expression, and review a grammar rule.

Learn a language while reading the news with Learning News®

Everyday, the international press is analysed by our trainers to select articles providing valuable listening and reading exercises just for you. Learning News® is user-friendly; it's just like reading a newspaper. Simply choose articles and videos of interest to you:

- 'Studying the news': daily articles read by our teachers and followed by comprehension and vocabulary exercises
- 'Video of the week': a documentary video including various learning activities
- Video adverts, jokes, games, and famous quotes make for fun exercises

Do you want to learn faster?

Your priority: 'Your Language Course'

Our teachers prepare you a daily lesson, encouraging you to work on the practical skills you need to meet your targets. You can even learn offline by downloading the lesson onto an mp3 player.

The road to progress

In your Guided Exercises adapted to your learning objectives, you focus on professional and general vocabulary, grammar rules, reading and listening skills.

Become expert in your own field of activity

You can either choose from our extensive range of classified documents or work from your own professional resources, which can be easily transformed into interactive lessons, enabling you to practice both your oral and written skills.

Your language course

Today your lesson 1 is about:

Se présenter 1

You wish to work for.:

- ▶ [15 minutes](#)
- ▶ [30 minutes](#)
- ▶ [45 minutes](#)

[List of your lessons](#)

- ▶ Vocabulary 0%
- ▶ Grammar 0%
- ▶ Understanding 0%
- ▶ Situation Cards 0%
- ▶ Work in your professional field
- ▶ Guided exercises

▶ Assistants

Do you need help at work or assistance in your training programme?

Reach autonomy with our interactive assistants:

- CyberTeachers® offers a dictionary, a translator, a language laboratory, and even an intercultural forum.
- Use the *Assistants* for autonomy in written and oral communication.
- The *Memorizer* will help you remember vocabulary by combining the use of visual, auditory and associative memory skills.

You are accompanied throughout your training programme:

- Your learning programme and all the features of CyberTeachers® are explained in the presentation demo. *SOS Teachers* will provide answers to your questions within 24 hours.
- Our *boosters* will monitor your attendance and remind you when you are falling behind the recommended pace (businesses only available).
- Our built-in performance indicator shows your day-by-day progress and what still needs to be covered.
- Our hotline will answer your technical questions.

For Blended Learning / Intensive Programmes, CyberTeachers® is directly linked with the telephone lessons via "Your Language Course"
